

Domino round

Recessed multiple luminaires with decorative bezel painted silvergrey. Each luminaire has 1, 2, 3 or 4 units for CFL, QR-111 or CDM-R111 / HCI-R111 lamps.

Downlight units CFL

Combines high efficiency with low-glare thanks to:

- ▷ superior reflector material
- ▷ multi-focus reflector technology
- ▷ aluminium reflector functions as heat-sink

Resulting in a LOR of 75% for CFL lamps and 82% for HCI-E/P lamps, an UGR rating of <16 and a visual cut-off from the horizontal axis of 35°.

Spot units

The 12V50W QR-111 halogen and the 35-70W CDM-R111 / HCI-R111 lamps are powered by remote transformer or HF gear. Easy lamp replacement from the front. Units are fully directional with a tilt of 45°.

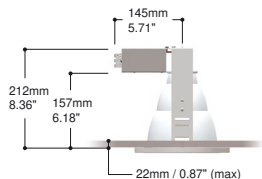

Design: Philip Feenstra, 2006

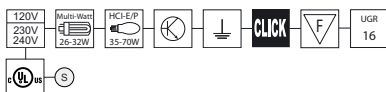

standard:
silvergrey decorative bezel

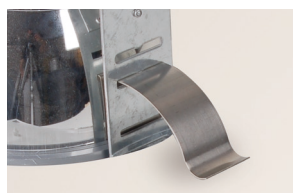

optional:
white decorative bezel at no extra charge

Domino round 1x CFL, E26/E27, HCI-E/P				
code	W	lamp	base	lm
06.110	1x26/32W	TC-T/E	GX24q-3	1800/2400
06.113*	1x35W	HCI-E/P	E26/E27	2850
06.115*	1x70W	HCI-E/P	E26/E27	6400
06.090	(max.) 100	E26/27	E26/E27	
* Recommended to be used with coated lamps				

50.571 Spring for ceiling thickness 22-45mm (set of 2 pcs)

- ▷ multi-focus low glare reflector (visual cut-off 35°)
- ▷ vacuum metallized high efficiency reflector (light output ratio 75-82%)
- ▷ including electronic gear
