

Teknilux

Teknilux-C A range of architectural ceiling mounted round compact fluorescent downlights. The downlights are suitable for horizontally mounted compact TC-T/E fluorescent lamps. The reflectors, made of 99.95% anodized aluminium, are available as dual finished polished/matt or with a diamond faceted surface. The bezel and the metal housing are painted silver-grey. Equipped with an integral multi-watt 26/32/42W electronic ballast. A wide range of accessories is available.

Teknilux-C CFL with diamond faceted reflector
