

Teknilux

Teknilux-W CFL is a range of architectural wall mounted round compact fluorescent luminaires that can be mounted directing upwards or downwards. The luminaires are suitable for horizontally mounted TC-T/E compact fluorescent lamps. The reflectors made of 99.95% anodized aluminium are available as dual finished polished/matt or with a diamond faceted surface. The bezel and the metal housing are painted silvergrey. Equipped with an integral multi-watt 26/32/42W electronic ballast. A wide range of accessories is available.

Teknilux-W CFL
