

Tension stainless steel

Tension is a range fixed and adjustable recessed stainless steel downlights for low voltage MR16 and mains voltage HaloPAR 16 / HiSpot ES(D) 50 lamps. The lamp housing is made of brushed stainless steel. A wire-sprung or flat-leaf spring attachment allows easy installation in false ceilings or concrete ceilings with casting drums.

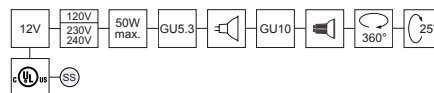

Tension adjustable MR16, HaloPAR 16					
code	V	W	lamp	base	fixing type
82.015	12V	50W (max.)	QR-CB(C)	GU5.3	wire-sprung fixing *
82.015B	12V	50W (max.)	QR-CB(C)	GU5.3	flat leaf-spring fixing **
82.015G	230V	50W (max.)	HaloPAR 16	GU10	wire-sprung fixing *
82.015GB	230V	50W (max.)	HaloPAR 16	GU10	flat leaf-spring fixing **
Excluding transformer					

* wire-sprung fixing

** flat leaf-spring fixing
