

## Trend

**Trend** is a recessed round downlight for CFL lamps with a polished anodized 99.95% aluminium reflector. Can be used in a variety of ceiling types with a thickness ranging from 0 to 35 mm (0 to 1.38"). The die-cast aluminium bezel is silvergrey or white epoxy coated. A prismatic glass lens covers the lamp(s). The downlight can easily be fitted into the ceiling using a quick spring system.
